Boss HAAUG Speaks by Phil Booth

Happy New Year! Was 2018 good for you? What are you looking forward to in 2019? Is there a life change scheduled for this year? Well, I hope all of your plans work for you.

Resolution 1: Do not fall for phishers. They are evil. Keep your BS antennas up and functioning. In December I received an email stating that my Apple account was frozen because someone tried to use my Apple ID in a strange location (Canada) on an iPhone X. See graphic below.

I did not think about it because I don't use my Apple ID that often. But I was home and making some calls and decided to contact Apple about the message. I spoke to an Apple rep and he quickly reassured me that I was right not to take any action he asked me to forward the message to the Apple Security group and delete it.

I have gotten email from Phishers that looked like it was from my bank. Again I contacted customer service and was assured that the message did not come from the bank. What I worry about is when the fraudsters start calling saying that they are from your bank, credit card company, or Apple. I watched a YouTube video with an attorney who strung a fraudster until the guy hung up. The fraudster claimed to be an IRS Agent and was trying to get the attorney to purchase gift cards to pay back a fake debt.

Apple sent shock waves through the markets when CEO Tim Cook announced that iPhone sales in China were going to miss the predictions by the company and analysts. The announcement caused Apple

shares and the markets to drop. Analysts pointed to a general slowdown in the Chinese economy, and the move away from Apple to local producers.

Tech pundits have complained that the iPhone has not really changed. The iPhone when it was introduced was a revolutionary product, but subsequent iterations of the iPhone look like the previous version. I own an iPhone 6 it can use the most recent OS. It still works and I am not looking to move to an iPhone X at this time. Apple products are of such high quality that people continue to use them and are not clamoring for the next new thing.

HAAUG lost an old friend the first week in January. Barbara Long, former Treasurer, passed away. Barbara kept HAAUG functioning during some very hard times. She dealt with poor health for several years. Her spirits were buoyed by using her iPad to view her favorite shows.

It's not too late for you to get a table for the January Swap meet. Go to haaug.org and click on the purple button at the top of the page. In February, Bob LeVitus will again present at the meeting.

HAAUG Electronic Communications Systems: The October Apple

Barrel was released to members Tuesday, October 16, 2018. Both the HAAUG Facebook and Meetup sites were up-to-date. The January 2018 Swap Meet sign-up is up on the website.

A bigger problem is that the HAAUG email and website are down because of a problem with MacHighway (pkcranebooth.com) server.

Ryan explained that he is having a problem with the HAAUG email account. He said we need DKIM key to "white list" the server to keep the HAAUG emails from going to everyone's junk mail.

Domains will be expiring as follows:

haaug.org expires 5/24/19

haaug.net expires 9/30/19 (clarify this - is it haaug.net or haaug.net.org?)

haaug.com expires 8/5/19

The HAAUG group also needs a new email, like for domain management.

New Business

Anniversary of the first Mac release (1/24/84) is coming up in January.

Ryan proposed that we send announcements for the meetings to members—and after the meeting send out the Apple Barrel.

Clair pointed out there are two meeting dates in 2019 that will be a problem.

She proposed that the 4/20/19 (3rd Saturday of April which is the Saturday before Easter and is also Passover) meeting could be changed to either 4/13/19 or 4/27/19.

The 12/21/19 (3rd Saturday of December which is the weekend before Christmas and the day before Hanukkah starts) meeting could be changed to 12/14/19.

Clair presented the new 2019 budget which will be submitted and voted on by the membership in November. The budget was based on an average membership of 100 members. Ryan Eisworth moved that the new budget be approved. It was seconded by Mike King and unanimously approved by the directors. It will now go to the membership for approval.

The board of directors agreed that the domain hosting for the HAAUG website and email should be moved.

Phil Booth suggested that the gift cards could be up graded for giveaways.

Current board members are willing to serve next year. We need to check with Steve Bridgham to see if he is able to continue.

Jeff suggested that we post stuff for sale on the HAAUG website and/or Facebook. This can be explored further as a user support group. He did not receive a response of any kind.

Websites that may be considered to store HAAUG documents:

Dropbox: They have discounts for non-profits and business class. It is \$12.50 per user for \$750 per year. It assumes three users, 3 x \$12.50 x 12 months = \$450.00

Or, we could use FTP (does this apply to Dropbox?)

BitTorrent: This storage shares a key with a defined number of people.

BackBlaze: This approach may have to have some infrastructure behind it.

SyncThing: This is an open source approach. The files are stored there and each authorized person receives a key. It is

not IOS compatible.

Old Business: Still need to get in touch with Jeff Davis to resolve Filemaker version and hosting issues.

Adjournment: Clair Jaschke motioned to adjourn the meeting at 1:53 p.m. and it was seconded by Mike King.
