What is
“Working Smarter?”

Mission Statement

- ❖ My mission is to teach Mac users to:
 - ❖ Use their Macs better, faster, and more elegantly.
 - ❖ Banish procrastination forever.
and
 - ❖ Do more work in less time so they have more time for the things they love.

Duet: Turn your iDevice into a Mac display...

Space Is A Beautiful Thing

Ex-Apple Engineers turn your iPad into an extra display.
Now for Mac & PC.

More Space

Duet is the first app that allows you to use your iDevice as an extra display for your Mac using the Lightning or 30-pin cable.

Fast

Duet is built by ex-Apple engineers, delivering a retina display at 60 frames per second with zero lag. Seriously.

Productive

An additional display increases productivity by up to 48%.

Touch

Interact with OS X like never before. The most advanced display for your Mac.
